PTOL 413A - Continuation Sheet

As tentatively discussed with the Examiner by telephone, Applicants request a personal interview with the Examiner and Supervisory Examiner on November 30, 2005 or December 1, 2005, or if an interview is not possible in the present quarter, on December 13, 2005 or December 14, 2005.

Applicants propose to exhibit a sample of the claimed ballistic material, provide a practical description of the process of making, and show the correspondence of elements of the invention with the claim terms.

Applicants further propose to address certain factual assertions made in the office actions to date with respect to the scope and content of the cited prior art and the level of skill in the art, with a view to supporting Applicants' position with an appropriate declaration.

Applicants note that the Final Office Action (dated November 2, 2005) at page 4 invites Applicants to provide evidence with respect to the level of skill in the art and/or the reasonable expectation of one of ordinary skill in the art, and at page 6, invites a response with respect to the backface signature property alleged to be inherent. It is believed that these matters can also be constructively addressed in the interview, increasing the likelihood of Applicants preparing a successful response.

Applicant's attorney may be reached in our New York office by telephone at (212) 218-2100. All correspondence should continue to be directed to our below listed address.
